POSTAL ADDRESS:..... EMAIL:.....

..... MOBILE No:.....

FIELD NAME	CROP	H/A'S	PRODUCT	RATE/H	WATER VOL/H	PROD REQ.

CHEMICAL SUPPLIER ..... AGENT / AGRONOMIST.....

To protect the environment and to do everything practically possible to prevent any off target application it is necessary that the following checklist be completed before the commencement of any aerial application.

1. Are the chemicals/products registered for aerial application on the intended crop ? Yes  No
2. Is the application rate according to label recommendation ? Yes  No
3. Are all surrounding vegetation types, especially susceptible crops shown on the map ? Yes  No
4. Have you contacted each of your neighbours and advised them of your intended application and the chemicals/products to be used ? Yes  No

It must not be assumed that anything on your neighbours land is of no value. They should be asked if there is anything on their land of which they may be aware that could be detrimentally affected by the proposed application.

5. Did you receive any objections to the intended application ? Yes  No
  6. Is there any objection by neighbours to the chemical or any off target application ? Yes  No
  7. Are there any houses, work places or other inhabited buildings over which the aircraft should not fly, or in the vicinity of the application ? Yes  No
  8. Are there any occupied dwellings within 150 meters of the field ? Yes  No
- If so written permission from the occupier will be required or a buffer zone will be left.

### Are there any special considerations for any of the following?

**POWER LINES**

(in treatment paddock) Yes  No

**POWER LINES**

(in neighboring paddocks) Yes  No

Susceptible Crops Yes  No

Organic Farms Yes  No

Wind Directions Yes  No

Roads/School Buses Yes  No

Stock Routes Yes  No

Rivers Yes  No

Waterways Yes  No

Beehives Yes  No

Vines Yes  No

Pasture Yes  No

Grazing Stock Yes  No

If you have answered "yes" to any of the above, please mark areas on the map and give details: \_\_\_\_\_

9. If you intend to use a private airstrip, have you sought permission from the owner? Yes  No  N/A

10. Airstrip/dumpsite condition: is the airstrip slashed? Free from rocks/holes/wire/etc? Yes  No  N/A   
Is the dumpsite free from grass/rocks/other debris?

11. Please supply a detailed map of the property with North and the area to be sprayed clearly marked. Be sure to provide details of neighboring houses, occupied buildings, surrounding vegetation and **POWER LINES** in the application area and adjoining paddocks, as well as a property location map.

By signing this form you are agreeing to Fred Fahey Aerial Services Terms and Conditions available at [www.fredfaheyaerialservices.com.au](http://www.fredfaheyaerialservices.com.au)  
I hereby declare that all information provided in this checklist is complete, true and correct.
